

**AC 5/32** A laminate floor's resistance to wear is given as an abrasion class, e.g. AC 5. Here, the number 5 indicates that it will not show signs of abrasion for a considerable length of time.

**AC 5/33** The wear class figure indicates the level of use for which the laminate is suitable. 32 represents average commercial use and 33 is for heavy commercial use.

Floors with these symbols have the following properties:

 These panels have a 45° bevelled edge all the way round. Putting them together creates a V-shaped groove, which replicates the character of natural wooden floorboards.

 Decors with this symbol are antistatic.

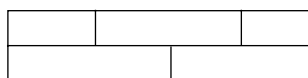

Outstanding features of all MY FLOOR products:

 All floors use the CLIC system. Simple to lay with no need for a hammer, tapping block and crowbar. Safe and stable, you can walk on them right away.	 Highly resistant to cigarette butts.	 Made from natural, renewable materials.
 Low flammability.	 Not light-sensitive.	 Comfortable to walk on.
 Easy-care and durable.	 Stain-resistant.	 Suitable for use over underfloor heating.
	 Resistant to wear.	 Hard-wearing and pressure resistant.

## Collection 2017

Where elegance meets rustic nonchalance and nautical style meets La Dolce Vita in a stylish, feel-good atmosphere with a solid practicality – and the choice is yours!

The MY FLOOR Collection 2017 unites elegant design and the authentic look of real wood with the advantages of a top-quality, modern laminate floor. It is tough, low-maintenance and durable. Whether you prefer the feel of life by the sea or the urban elegance of a town house, MY FLOOR has just the floor to make you feel good, without compromise on quality or appearance.

**MY FLOOR** – Variety for individualists. Made in Germany.

## And without compromise to the environment!

MY FLOOR has made a voluntary commitment to full transparency. This means that we take the environmental sustainability of our products as seriously as maintaining the highest standards of quality and giving outstanding value for money.

Our environmental policies focus on ecological efficiency – for the whole life cycle of any given product that leaves our factory. We process certified raw materials sourced from sustainably managed forests and check the environmental impact of every stage of production. We produce high-quality and very long-lasting laminate flooring, and also take care of eco-friendly disposal. Our Environmental Product Declaration (EPD) makes information on the environmental credentials of our wood-based products freely available. The EPD is awarded by the Institut Bauen und Umwelt and is an internationally recognised ecolabel in accordance with ISO 14025.

And because we want to keep things this way, we give our staff regular training in awareness and knowledge of environmental matters. We are always striving for better – for you and for our environment. As a result, we are proud to have been awarded Blue Angel environmental certification.

# Lodge

If you like to feel the sea breeze in your face and go for a simple, straightforward maritime look, the MY FLOOR Lodge Collection will bring a breath of fresh air right into your home.

Lodge will win you over with its unique range of decors. It can be used anywhere and will stand up to anything – even rough seas or a mutinous crew.

# COTTAGE

You're curled up in your favourite armchair with a good book while a roaring fire crackles in the hearth. When you stand up to throw another log on the fire, you enjoy every step on your perfect floor.

The MY FLOOR Cottage Collection exudes the warmth and cosiness of a solid wooden floor: an authentic structure, an embossed grain and a beautiful matt shimmer to the surface – even if the fire in the hearth goes out now and again.

## Our Decor of the Year

### **Montmelo Oak Nature – MV856**

So new and already an absolute classic. Montmelo Oak Nature is a flooring that is made to last. Understated, unadulterated and unfading. Its naturally light colouring with the warm, rich character of real wood is suitable for all floors that require enduring reliability.

Siesta or teatime, Montmelo Oak Nature from the Cottage Collection brings peace and relaxation to any room. Anytime.

# Chalet

If you love the rustic Alpine atmosphere, relaxing by an open fire and being surrounded by top quality natural materials such as wood, leather, cool linen or cosy fur, the MY FLOOR Chalet Collection will soon find a place in your heart. With the robust appearance of natural wood and tough enough for the outdoor life – they won't scratch whatever you throw at them.

# Residence

Perfectionist tendencies? Then treat yourself to the highlight of our current range. Residence combines urban elegance and the nonchalant air of a loft apartment. The extra-long panels and authentic look of fine natural wood are particularly appealing. This outstanding, high quality flooring will withstand even the roughest treatment.

To quote Oscar Wilde: "I have the simplest tastes. I am always satisfied with the best."

## SUPERIOR SOUND

PU-based with foil lamination

5,500 × 1,000 × 2.8 mm

**1 PACK** 1 roll = 5.5 m<sup>2</sup>

**1 PALLET** 40 rolls

## Panel construction

The panels for our laminate flooring are made up of at least four sturdy layers. These guarantee the durability and excellent quality of MY FLOOR. This is how we create long-lasting floors for all requirements.

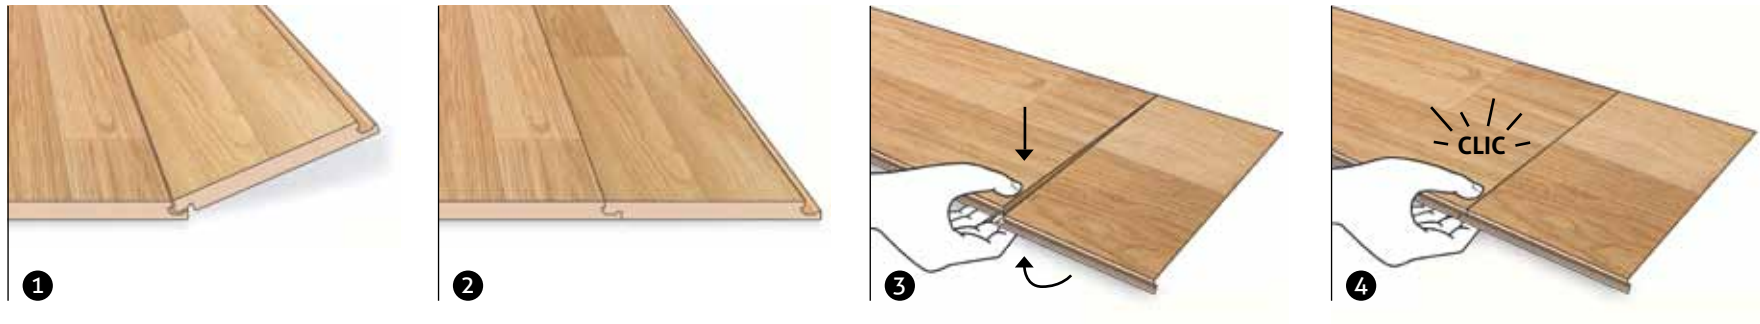

- A** The upper surface of the flooring features a particularly wear-resistant overlay protection film.
- B** The overlay protection film is pressed together with the individual, hardened decorative film to form a hard-wearing surface.
- C** A special, high-density fibreboard from a recognised source forms the base layer (HDF, E1).
- D** On the underside of the base board, a moisture-resistant stabilisation film ensures the structural stability of the MY FLOOR laminate.

The CLIC system makes laying this floor child's play: with just one finger, panels lock audibly into place. Simply unpack, lay, click and finish – without the least exertion or any additional tools.

- ✓ even easier to lay
- ✓ 50% time saving
- ✓ no hammer, push block or pull bar required
- ✓ safe and robust
- ✓ can be walked on immediately

For more laying tips, we recommend our YouTube videos at ► [video.my-floor.com](https://video.my-floor.com)
